CONSERVATION BOARD

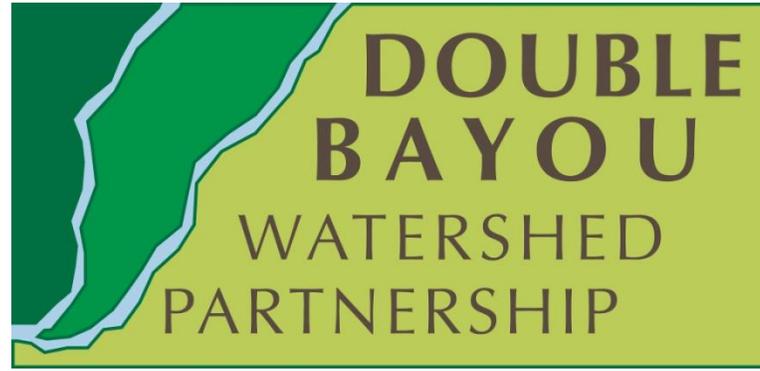

HARC

Project Updates

- TSSWCB 319 Grant:
 - Water quality monitoring, Data Analysis, Watershed Protection Plan Milestones

Project Updates

- SEP funding
 - Still working on installation of three OSSFs in Oak Island – rain delays
- Landowner Riparian & Stream Ecosystem workshop – early April
- Soil Health Workshop in Victoria - April 23rd and 24th
- Texas Water Resources Institute request for Bacteria Source Tracking sample collection

Update: H-GAC Coastal Communities

- Freddie the Fish presentation to Anahuac ISD 4th grade students
 - 110 students and one teacher in the presentations
 - Focuses on nine nonpoint source pollutions sources from residences and how to prevent them.
 - Each student and all the teachers in the school (about 25) received a pet waste bag leash dispenser, FOG funnel and plate scraper, and an Earth911 magnet.
